

# Healthy Niagara

## Niagara River Watershed Management Plan (Phase 1)

Developed By:

721 Main Street  
Buffalo, NY 14203

*Buffalo Niagara RIVERKEEPER® is a community-based organization dedicated to protecting the quality and quantity of water, while connecting people to water. We do this by cleaning up pollution from our waterways, restoring fish and wildlife habitat, and enhancing public access through greenways that expand parks and open space.*

In Conjunction with:

2919 Delaware Ave.  
Kenmore, NY 14217

478 Main Street  
Buffalo, NY 14202

*The Niagara River Watershed Management Plan (Phase I) was prepared for the New York State Department of State with funds provided under Title 11 of the Environmental Protection Fund.*

For more information on the *Niagara River Watershed Management Plan (Phase I)*, or to become involved in our regional watershed's protection and restoration, visit Buffalo Niagara RIVERKEEPER® online at [www.bnriverkeeper.org](http://www.bnriverkeeper.org). For more information regarding watershed planning in New York State, visit the NYS Department of State's website at [www.nyswaterfronts.com/watershed\\_home.asp](http://www.nyswaterfronts.com/watershed_home.asp).

|   |              |
|---|--------------|
| <b>Chapter 1: Introduction to Watersheds .....</b>                  | <b>1 - 1</b> |
| Watershed Overview – What is a Watershed? .....                     | 1 - 1        |
| Purpose of a Watershed Plan .....                                   | 1 - 2        |
| Planning Process Methodology .....                                  | 1 - 3        |
| Advisory Committee & Public Involvement .....                       | 1 - 5        |
| <br>  |              |
| <b>Chapter 2: Watershed Characterization .....</b>                  | <b>2 - 1</b> |
| Watershed Boundary & Sub-watersheds .....                           | 2 - 1        |
| Geology & Topography .....  | 2 - 3        |
| Hydrography .....   | 2 - 5        |
| Wetlands .....  | 2 - 9        |
| Floodplains .....   | 2 - 12       |
| Climate & Precipitation.....  | 2 - 12       |
| Climate Change.....   | 2 - 14       |
| Extreme Weather Events .....  | 2 - 17       |
| Existing Infrastructure in the Watershed .....                      | 2 - 18       |
| <br>  |              |
| <b>Chapter 3: Population and Development in the Watershed .....</b> | <b>3 - 1</b> |
| Population Characteristics of the Watershed .....                   | 3 - 1        |
| Historic & Current Population Trends .....                          | 3 - 1        |
| Population Density .....  | 3 - 3        |
| Development Trends .....  | 3 - 4        |
| Watershed Land Cover .....  | 3 - 7        |
| Land Cover by Sub-watershed .....                                   | 3 - 9        |
| Impervious Cover .....  | 3 - 10       |
| Riparian lands Assessment .....                                     | 3 - 12       |
| Watershed Land Uses .....   | 3 - 14       |

---

## NIAGARA RIVER WATERSHED MANAGEMENT PLAN (Phase 1)

---

|  |              |
|--|--------------|
| Land Use by Sub-watershed .....  | 3 - 17       |
| Other Adverse Land Uses, Sites or Facilities .....                         | 3 - 18       |
| Lands Protected from Development .....                                     | 3 - 20       |
| <br>   |              |
| <b>Chapter 4: Water Quality .....</b>                                      | <b>4 - 1</b> |
| Water Classification & Quality Assessment .....                            | 4 - 1        |
| NYS Waterbody Inventory & Priority Waterbodies List .....                  | 4 - 2        |
| Total Maximum Daily Loads (TMDLs) .....                                    | 4 - 6        |
| Aquatic Habitat – Water Quality Indicators .....                           | 4 - 8        |
| Water Quality of Wetlands & Lakes .....                                    | 4 - 10       |
| Groundwater Quality .....  | 4 - 12       |
| Drinking Water Supplies.....   | 4 - 13       |
| Areas of Concern (AOCs) .....  | 4 - 13       |
| Lakewide Area Management Plans (LAMPs) .....                               | 4 - 18       |
| Fish Consumption .....   | 4 - 19       |
| Causes & Contributors to Water Quality Impairments .....                   | 4 - 20       |
| Types of Pollution.....  | 4 - 20       |
| SPEDES Facilities & Other Permitted Discharges .....                       | 4 - 22       |
| Combined Sewer Overflows.....  | 4 - 23       |
| Sanitary Sewer Overflows .....   | 4 - 26       |
| Stormwater Infrastructure and Municipal Separate Storm Sewer Systems ..... | 4 - 27       |
| Agricultural Operations.....   | 4 - 29       |
| Historic Contamination (Brownfields) .....                                 | 4 - 31       |
| Thermal Increases.....   | 4 - 34       |
| Erosion & Sedimentation.....   | 4 - 34       |
| Invasive Species.....  | 4 - 37       |
| Emerging Contaminants .....  | 4 - 38       |
