

WATER AND SURFACES

DOES IT SOAK IN OR RUNOFF?

Directions: Take a walk around your yard or neighborhood and look at 3 different surfaces. Bring water with you and pour the same amount of water on each surface. Count how long it takes for the water to soak into the earth. Record your findings below.

What kind of surface?
(grass, dirt, etc)

Does the water soak in?
Does the water runoff?

**How long does it
take for the water
to soak in?**
